

Practice Session

The practice session provides both newcomers and experienced WHEP participants with training in preparation for the state contest. Two tracts are offered for (1) Juniors/Beginning Seniors and (2) Advanced Seniors.

Newcomers are encouraged to take the Juniors/Beginning Seniors tract. This tract covers wildlife identification, wild foods and concepts, aerial photo interpretation and wildlife habitat practices. Participants in the Advanced Seniors tract write a management plan and are critiqued. Tips for oral presentations are provided. Participants practice oral presentations as time allows.

The practice session is open to 4-H'ers and their siblings, volunteer leaders, coaches and 4-H agents. Participants in the Juniors/Beginning Seniors rotate through sessions as a county group.

What to Bring

Bring clipboards, pencils and paper for taking notes. Sessions are held indoors unless the weather permits outdoor exploration. Typically lunch is provided as part of the registration fee.
